Cut.

Insert.

Correct.

Fixate.

Ordering Information

SK57 Nanoplasty™ Implant Kit

SD29 Nanoplasty™ Bicortical Screw Pack

Before use of the system, the surgeon should refer to the appropriate instructions for use and surgical technique for complete warnings, precautions, indications, contraindications, and adverse events. Risks include, but are not limited to: infection, pain, discomfort from the presence of the implant, loosening of the implant, and loss of correction with nonunion or malunion. If any of these occur, additional treatments may be needed. Additional information about risks, warnings, and instructions is available at Lapiplasty.com/surgeons/labeling.
