Minimally Invasive Systems

Beveled Screws

MiS^{3D™}

Minimally Invasive Systems

Beveled Screws

- **Reliable Throws**
Large diameter cobalt chrome wires designed to reduce skiving
- **Reduced Time**
Self-drilling screws allow for rapid insertion
- **Less Fluoroscopy Exposure**
Confirm screw head position without fluoroscopy with innovative driver technology

3.0mm Screws		4.0mm Screws	
SF30XX (XX = Length) Available Lengths: 20mm – 50mm In 2mm increments		SF40XX (XX = Length) Available Lengths: 30mm – 60mm In 2mm increments	
Shannon Burr	Shannon Burr	Wedge Burr	
TM12013 2mm x 13mm	TM12220 2.2mm x 20mm	TM22913 3mm	

Before use of the system, the surgeon should refer to the appropriate instructions for use and surgical technique for complete warnings, precautions, indications, contraindications, and adverse events. Risks include, but are not limited to: infection, pain, discomfort from the presence of the implant, loosening of the implant, and loss of correction with nonunion or malunion. If any of these occur, additional treatments may be needed. Additional information about risks, warnings, and instructions is available at Lapiplasty.com/surgeons/labeling.
